

Sibonelo Mbatha

PERSONAL PROFILE

I am a young and enthusiastic individual who enjoys interacting with people and learning new things, I take pride in my work and strive to do my best and in all my endeavours. I listen to instructions well and manage my time well as this is key to growing and improving as a person. As I have very little work experience an opportunity like this will allow for me to gain new skills and learn more about the work environment and field I have chosen. I am very passionate about technology and programming and look forward to growing as an individual and leaving my mark in the industry.

Here is a link to a website I have created: <https://sibo14.github.io/>
